

Appl. No. 10/062,349
Amdt. dated December April 8, 2005
Reply to Office action of March 15, 2005

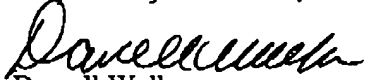

REMARKS

The Notice of Non-Compliance Amendment mailed on March 15, 2005 indicates that a complete listing of all the claims is not present. There are six amended claims (1, 2, 8, 13, 14 and 20) for the response filed September 27, 2004, to the Office Letter dated June 25, 2004. Applicants have included a complete listing of all of the claims with proper identifiers for each claim. The Notice of Non-Compliance Amendment mailed on December 2, 2004 indicated that claims 8 and 20 of the amendment document filed on September 27, 2004 do not include underlined or markings. These punctuation amendments were in response to the objection of claim 8 in the Office Letter dated June 25, 2004, that there was no delimiter at the end of the limitation "storing the copy of the located display in the display file". Claims 8 and 20 do contain underlined markings. The amendments to both claims were punctuational. In claim 8, a semicolon was inserted at the end of the step, storing the copy of the located display in the display file. In claim 20, a semicolon was inserted at the end of the step, instructions for storing the copy of the located display in the display file.

These amendments were present in the amendment filed on September 27, 2004. Applicants' understand that the nature of the amendment may not be conspicuous to the eye.

Applicants believe this reply to be fully responsive to all outstanding issues and place this application in condition for allowance.

Respectfully Submitted,

Darcell Walker
